THE DISPENSARY.

We see no occasion for excitement over the dispensary proposition. This paper has opposed the holding of an election for it is said on all sides that the outcome is a foregone conclusion in favor of no dispensary, and to have an election would be unnecessary.

THE BIBLE IN SCHOOL

I believe in teaching the Bible in the schools or at least in having it read to the children. I can see in memory the old school which I attended. can see the worn old Bible, used by two generations of teachers. The good book did duty by day in the school room and by night in the Masonic lodge overhead, and I suppose if the truth were known it was used in wearing in the Kulfux in those days when the schoolhouse was the community center and the center of the defense of the white civilization of our country.

I can see the teacher now, and I can remember some of the passages he was accustomed to read. Take that irst verse in the first Psalm. Did you ver stop to consider what a world of wisdom there is in that one verse? If David had written just that one verse and had stopped he would have been entitled to immortality as a writer. Listen:

Blessed is the man that walketh not in the counsel of the ungodly, nor standeth in the way of sinners nor sitteth in the seat of the scornful.

But his delight is in the joy of the Lord and in His law doth he meditate, day and night.

And there are other Psalms precious o memory because of the associations of those days, and there are the Proverbs and other delightful passages of Scripture which might have been shorn of their interest unless it had been for the manner in which they were read in the old school house.

Ter Heel Congressman Defines Labor Union Exemption In the Anti-Trust Law

Washington, Jone 43.4 "There is not a provision in the anti-trpst bill which can be tortured into meaning that violence, coercion or intimidation are authorized or countenanced," said Representative Webb, of North Carolina, chairman of the House Judiciary committee in a statement today recommittee, in a statement today regarding the House omnitue; trust bill now pending in the Senate. He gave the official version of the development of the labor evention.

of the labor exemption clause.

"The framers of the Sherman law."

Representative Webb said, frager intended to place labor organizations and farmers' organizations under the ban of that law. The existence of a labor of farmers' union never has been un-lawful and it is not unlawful. I to-day, but it was desired to place in the statutory law of the country a recogni-tion of the rights of these organiza-tions to exist and carry out their law-

tions to exist and carry out their lawful purposes.

"After the original section 7 of the anti-trust bill was drawn, certain representatives of labor contended that the section did not give labor all it was entitled to. Finally we agreed to add to what had already been provided in the labor plank as adopted in the Baltimore Democratic convention that organizations, orders or associations or their members should not be held illegal combinations in restraint of trade under the anti-trust laws. This added nothing material, but seemed a pretty good compromise proposition.

pretty good compromise proposition.
"This does not give labor, framers or fraternal organizations any more than they are entitled to under the law today, nor any more than the Federal courts throughout the country have held them entitled to. This provision will protect them from dissolution un-der the anti-trust laws, but does not protect them from penalties for vio-lating the criminal laws of the country.

Wilson the Hero In Alumni Meeting

(By Associated Press.) Princeton, N. J., June 13. — With President Wilson, "Tommy Wilson, 79," as the hero of the occasion, Princeton's greatest "alumni" in years was celebrated here today.
